github.com/MS-Shamanth | Mysuru, Karnataka

Executive Summary

Aspiring final-year Computer Science student passionate about AI and Machine Learning, with hands-on experience in machine learning, generative AI, and intelligent systems using Python, TensorFlow, HuggingFace Transformers, and FastAPI. Strong foundation in DSA, OOP, and Deep Learning, with knowledge of Google Cloud Platform. Runner-Up at TiE U Global Hackathon 2024 and Infosys Global Hackathon Finalist.

Skills

- **Languages:** Python, JavaScript (ES6+), C, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Databases:** PostgreSQL, MySQL
- **Backend:** Node.js, Express.js, REST APIs, FastAPI
- **Machine Learning:** TensorFlow, Keras, Scikit-Learn, Pandas, NumPy, Hugging Face Transformers
- **Cloud & DevOps:** Google Cloud Platform, Docker, Kubernetes, Jenkins
- **Tools:** Git, GitHub, VSCode, Postman, GitHub Actions
- **Core Concepts:** Data Structures & Algorithms, OOP, Operating Systems, Computer Networks

Project Experience

Neuro-Symbolic System-2 Reasoning Architecture for Hallucination Reduction

- Designed a hybrid **LLM + ACT-R reasoning architecture** that reduced hallucination rates by **25%** on **500+ multi-step benchmark tasks**.
- Implemented a Python-based evaluation framework using HuggingFace Transformers to evaluate reasoning consistency across benchmark tasks.
- Engineered a symbolic verification layer with **25+ production rules** and structured working-memory buffers to validate intermediate reasoning steps.

InterviewSim — AI Interview Rehearsal Simulator

- Created an AI interview platform with **FastAPI, React.js, PostgreSQL, and Node.js**, featuring **10+ career-preparation tools**.
- Built a **4-metric AI scoring system** and adaptive interview engine using **Mistral AI** for personalized mock interviews.
- Integrated voice-based interviewing with **ElevenLabs** and performance tracking across interview sessions.

AgriPredict – AI Crop Detection & Yield Forecasting | SIH Project

- Developed an end-to-end machine learning platform using **TensorFlow, Keras, and Scikit-Learn** for crop classification and yield prediction.
- Trained and compared **6+ machine learning models**, achieving **90%+ classification accuracy** on agricultural datasets.
- Improved prediction performance by **20%** through hyperparameter optimization and ensemble learning techniques.

Work Experience

AI/ML Intern | Infosys Springboard (Virtual Internship 6.0) — Feb 2026 – Apr 2026

- Automated preprocessing for thousands of records using custom Python scripts, reducing manual data preparation time by **~40%.**
- Introduced **4+ new financial risk features** (e.g., debt-to-income ratios), significantly improving model interpretability and baseline accuracy.
- Established a Logistic Regression baseline achieving **0.88 ROC-AUC**, documenting the process to establish benchmarks for future iterations.

Website Developer | Eureka Institute — Nov 2025 – Jan 2026

- Developed core frontend modules and UI components for a production-grade platform with responsive, accessible layouts.
- Optimized page load performance by **~28%** through modular restructuring, optimized state patterns, and reduced render cycles.
- Released weekly feature updates while maintaining a **95% merge acceptance rate** across team reviews.

Freelance Web Developer | PROFORMA (German Client) — Oct 2024

- Delivered a full-scale frontend with **13,000+ lines of custom CSS** aligned to enterprise UI standards.
- Enhanced usability by **~45%** through clear navigation flows, optimized interactions, and responsive layouts.
- Completed 100% of deliverables within deadlines, achieving strong client satisfaction and **approval in 4 review cycles.**

Education

Vidyavardhaka College of Engineering | Mysuru, KA — Expected August 2027

Bachelor of Engineering, CSE (AIML) — GPA: 8.31/10

Achievements

- **Runner-Up at TiE U Global Hackathon 2024** and received a VIP invitation to attend the **TiE Global Summit 2025**.
- **Won 1st place at Eurekathon 2025** (Coding Track), which led to being offered a **Web Developer role at the Eureka Institute**.
- Selected as a **Finalist** in the **Meta PyTorch OpenEnv Hackathon 2025**, placing in the **Top 800 teams out of 30,000+ registrations**.
- **Finalist at Infosys Global Hackathon 2025** by ranking in the **Top 2 out of 32 teams at Mysuru DC**, and attended **Grand Finale in Hyderabad**.
- **Won 2nd place at HAXLR8 2.0** a 24-Hour Hackathon Organized by **Maharaja Institute of Technology, Mysuru.**

Certifications & Credentials

- Salesforce Certified Platform Developer I (2026)
- Machine Learning Specialization – DeepLearning.AI & Stanford University (Coursera, 2025)
- Software Development Lifecycle Specialization – University of Minnesota (Coursera, 2026)
- Alibaba Cloud Computing Specialization – Alibaba Cloud Academy (Coursera, 2026)
- Google Cloud Career Launchpad Cloud Engineer track (2025)
- Google Cloud Career Launchpad Data Analytics track (2026)
